DOCUMENT SECURITY

ADVANCED
TECHNOLOGICAL
SOLUTIONS

&

Our vocation for innovation combined with ongoing investment in R+D makes Signe a benchmark company in the implementation of security solutions in the broadest sense of the word. Our value not only lies in the development of custom models, but in the strategic consultancy we offer, thanks to the extensive experience of our consulting team across many different sectors and markets.

Quality, flexibility and trust is what defines us.

Signe group

WHO WE ARE

Signe Group, founded in 1982 with headquarters in Tres Cantos, Madrid, is a document security company.

WE OPERATE IN TWO MAIN AREAS

Traditional business

Specialized in the printing of security documents for governments, official bodies, institutions and companies. Identity documents, official documents, bank documents, notarial deeds, academic certificates and any other type of document which requires special measures to protect against counterfeiting or fraudulent modifications.

COMBINED SOLUTIONS
(security + digital and technological documents)

Digital Identity on the cloud, linked to physical identity supports.
Trademark protection using combined physical and digital elements. Technology consulting for the development of projects and personalised solutions in physical, digital/technological and/or combined formats.

OUR COMPANIES

35 YEARS INNOVATING IN DOCUMENT SECURITY SOLUTIONS

Since Signe was founded in 1982, it has specialized in designing and developing document security solutions, and it produces and publishes documents –on both hard copy and digital media–that are protected against possible counterfeiting and fraudulent modification. And today, with over 30 years of experience, we are a benchmark in the sector in Europe and, increasingly, also worldwide.
