

SECUPAPER

by Signe

Anti-copy Security Paper

ORIGINAL

- Microprinting
- Fluorescent inks
- Hidden message "COPY"
- Starch-free paper
- Counterfeit detection marker
does not react

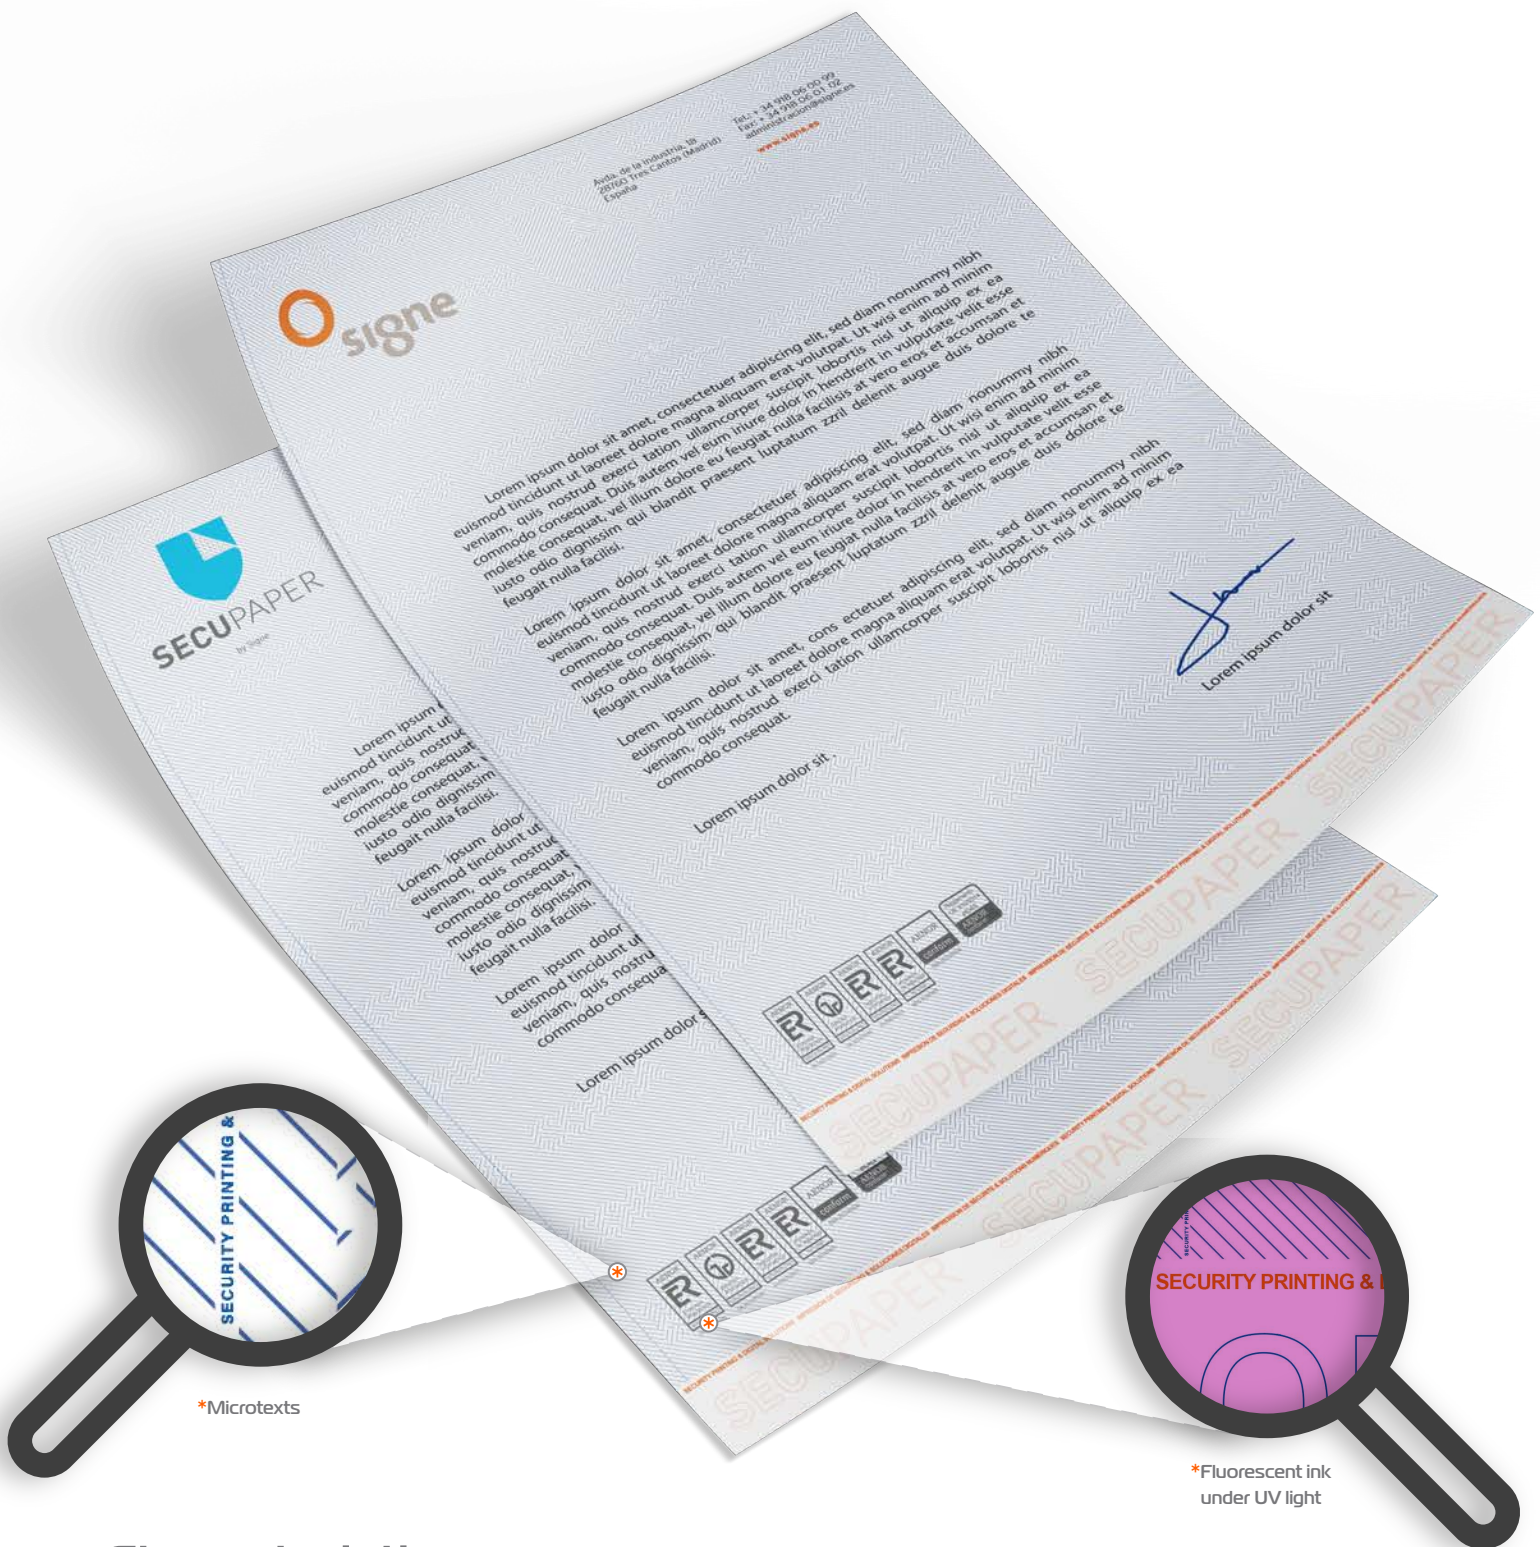

COPY

- The word "ORIGINAL" vanishes
- A hidden "COPY" message emerges
- Microprinting turns illegible
- Fluorescent inks are not shown in digital printing
- Counterfeit detection marker reacts, changes
colour, and turns brown

security paper reagent
